LinkedIn: <https://www.linkedin.com/in/zainabmunawar/>

SUMMARY

PharmD graduate and dedicated Medical Coder with specialized experience in Family Medicine and Accounts Receivable operations. Expertise in accurately coding outpatient encounters using ICD-10-CM, CPT, and HCPCS for U.S. healthcare providers. Skilled in medical documentation review, denial management, revenue cycle processes, coding accuracy, payer compliance, and clean claim submission. Proficient in ECW, AthenaOne, Codify, and EncoderPro, with strong knowledge of CMS and HIPAA regulations. Combines solid clinical pharmacy background with medical terminology and EHR expertise. Currently pursuing CPC certification to further advance coding proficiency while providing highquality virtual medical assistance.

WORK EXPERIENCE

Medical Coder

NOVA Patient Care

March 2025 – Present

- Accurately code complex Family Medicine encounters, including chronic disease management, acute illnesses, preventive care visits, Evaluation & Management (E/M) services at various levels, and minor surgical procedures, utilizing ICD-10-CM, CPT, and HCPCS coding systems in full compliance with CMS and NCCI guidelines.
- Conduct thorough and systematic chart reviews to identify gaps in documentation, proactively request clarifications from providers, and ensure records are complete, accurate, and support appropriate code assignment.

- Collaborate closely with physicians to improve clinical documentation practices, resulting in higher coding accuracy, reduced claim denials, and optimized reimbursement.
- Consistently maintain a high coding accuracy rate of 98–99%, demonstrating strong attention to detail and deep understanding of medical terminology, anatomy, and pharmacology.
- Apply strong clinical knowledge from PharmD background to interpret complex medical records and assign the most appropriate codes for diagnoses, procedures, and services.
- Provide essential coding expertise to support Accounts Receivable activities, including denial resolution and claim optimization.

Accounts Receivable (AR) Executive

NOVA Patient Care

October 2025 – Present

- Manage end-to-end insurance claims follow-up to ensure timely reimbursement and minimize days in accounts receivable. Analyze claim denials and rejections, determine root causes, implement corrective measures, and resubmit claims effectively to maximize revenue recovery.
- Verify payment postings, reconcile account discrepancies, and ensure adherence to payer-specific contracts and billing guidelines.
- Utilize EHR systems (ECW and AthenaOne) and billing tools to track claim status, maintain precise records, and contribute to overall revenue cycle performance.
- Communicate professionally with insurance carriers to resolve billing issues while strictly maintaining HIPAA compliance and patient confidentiality.

CORE SKILLS

- **Medical Coding Expertise:** ICD-10-CM, CPT, HCPCS (with solid knowledge of ICD-10-PCS)
- **Specialties:** Family Medicine, General Practice, Preventive Care, Chronic Disease Management, Acute Care, and Minor Procedures
- **Coding & Documentation:** Evaluation & Management (E/M) Coding, Chart Review, Provider Query & Clarification, Coding Accuracy & Compliance
- **Regulatory Compliance:** CMS Guidelines, NCCI Edits, HIPAA Privacy & Security Standards
- **Systems & Tools:** ECW, AthenaOne, Codify, EncoderPro, Microsoft Office Suite
- **Revenue Cycle Support:** Denial Management, Claim Optimization, Accounts Receivable Processes

ADDITIONAL INFORMATION

- Strong clinical foundation in medical and pharmaceutical sciences backed by a PharmD degree, enabling accurate interpretation of complex medical documentation and terminology.
- Proven experience working remotely with U.S. healthcare providers and teams in a fast-paced virtual environment. Demonstrated ability to consistently meet and exceed strict productivity and quality targets while maintaining high coding accuracy (98–99%).
